### Monthly CPO average selling price

- For the month of July 2014, CPO average selling price was booked at Rp8.1mn/mt or flat compared to 2Q14 average with a down trend for the remaining 3Q14.

SSMS – Avg. Selling Price CPO

- Further pressure on CPO price for the second half of 2014 is estimated as impact from potential record-high corn and soybean production in the US. Our view on CPO price to remain favorable in the long term, given that corn and soybean are annual crops which yearly production may vary depending on farmer's crop selection and weather.
